FF&E Manufacturing & Turnkey Solutions

LEADING FF&E MANUFACTURING & TURNKEY SOLUTIONS COMPANY

Hilton, Chad

We specialize in manufacturing of furniture, casework, lighting, and turnkey interior contracting of full FF&E supply and fit-out for hotels, restaurants, and other commercial facilities. We work for owners and contractors to deliver quality custom products manufactured to the unique specifications of architects and interior designers. We have over 15 years of experience and track record of successful projects as a leading manufacturer / supplier / installer of FF&E products.

We manufacture both contract furniture and mid to high volume production of quality goods. Our custom manufacturing process is a combination of handmade work by skilled craftsman and state of the art technology allowing us to accommodate all unique designs and specifications. Our team creates top quality one of kind pieces for the most discerning clients.

Through experience, we have created a comprehensive turnkey process of services that take projects from start to finish with the driving principles of providing superior quality with competitive pricing and on-time delivery.

- Finishes Sample development
- Quality Controlled manufacturing
- Export Standard Packing & Shipment
- Site Installation
- De-snagging & Handover

I-Field Process

Our process flow offers complete and systematic solutions. A brief explanation is given in here. This process allows us to provide the highest quality goods at the most cost effective prices directly to our clients.

The Difference
HOW WE DO

Understanding and assessing the product needs of the Project and help the client verify the BOQ. Providing technical team visits on site to ensure that the final output fits perfectly.

Even while the client may have a design concept through external agency, we recommend them with various options to make the final decision more comfortably.

Planning is the most important phase of the project. We pay attention to the smallest details. From production to installation, a fully comprehensive plan is documented.

We have the sourcing capabilities to access materials from far and wide to cater to your needs and work with you to find the balance between budget & quality.

Our experienced AUTOCAD team prepares detailed shop drawings for final approvals to clients before initiating any manufacturing process to ensure the right deliverable's are done.

Our workforce is experienced in custom manufacturing for more than 20 years and our stern quality control procedures are the key factors resulting in superb quality and value for money.

Through many years of experience in the international market, we have a streamlined process of delivering our goods in the most cost effective manner whilst maintaining a strict time line.

We have a well-trained and expert fit-out team to execute fit out works such as paint/POP, ceilings, etc. if the client wish to contract the same. Installation is the most crucial stage of the project.
